

### WHAT CAN I EXPECT?

Patients can expect to feel a heating sensation during treatment. Results can be felt and seen immediately, with continued results over the following weeks or multiple treatments.

### WHAT IS THE DOWNTIME?

Depending on the intensity of the treatment, there is little to no downtime. Most patients may have slight discomfort during and immediately after treatment. Some patients will experience no discomfort at all.

### HOW MANY SESSIONS ARE REQUIRED?

Your physician will determine the best treatment plan for you. The majority of patients have 2-3 sessions, however, most notice a difference after only 1 treatment. The number of sessions depends on your treatment concerns, your personal goals, and if you plan to use a combination treatment or a single treatment approach.

Votiva offers immediate results,  
with continued improvements  
over time.

A Safe, Gentle and Effective  
Non-Invasive Solution for  
Feminine Health

## ADVANCED RENEWAL FOR FEMININE WELLNESS

**VOTIVA**  
by INMODE

Previously, women did not have many options to improve intimate issues that occur from childbirth or aging.

Now, with new technologies available, women have more options to resolve their discomfort. There are new choices that are effective, easy and painless.

The time has come for a safe and effective treatment that is quick and comfortable. Votiva offers solutions that address internal and external vaginal health concerns, with clinically proven feminine wellness technologies.

*Make a promise to yourself  
to hold your well-being sacred.*

### Fast, Gentle and Effective

#### COMMON FEMININE HEALTH CONCERNS:

- Elasticity and wrinkled appearance of the labia and vulva
- Low blood flow and sensitivity
- Pain sensation caused by labial hypertrophy
- Level of sexual interest and self-esteem
- Weakening of the vaginal muscles

#### WHAT IS VOTIVA?

InMode's Votiva system is a safe, effective treatment for feminine health that offers immediate results with continued improvements over time.

#### HOW DOES VOTIVA WORK?

Votiva uses FormaV and FractoraV technologies to address the internal and external areas of discomfort or concern.

- **FormaV** – Gentle thermal tissue remodeling (internal and external)
- **FractoraV** – Fractional radio-frequency contraction (external)

During a pre-consultation, your physician will speak to you regarding your concerns and expectations. At this time, they will develop a tailored treatment plan that can include either FormaV or FractoraV, or both.

Please speak to your aesthetic provider to see if Votiva is right for you.
